

WELCOME to the May edition of the Aspen International. May we first say thank you to all of you for your patience during the volcanic ash situation. All deliveries should be back to normal now.

CLEARANCE LINES

We still have a number of **ASP, Blackhawk, Quickstep & Arena** products on sale from January.

STARFORCE® THE ULTIMATE SERVICE BOOT

STARFORCE® footwear is developed and tested by footwear specialists and professionals to perform in the toughest environments. The STARFORCE® line of tactical performance

footwear are the boots of choice for law enforcement, military and service personnel throughout the world. With features like breathable high-tech materials, steel shanks, heel stabilizers, ultimate slip and oil resistant carbon rubber outsoles, moisture wicking linings, anti-shock cushion midsoles and tough toe and heel counters, the STARFORCE® line has earned its reputation as the service boots for maximum agility, speed and stability in tense situations.

HATCH

As you are probably aware Aspen International is the UK distributor for Hatch. Hatch are part of the BAE family and we are therefore able to provide competitive pricing on all the product ranges.

Hatch provides quality gloves and other protective gear for uniformed duty, tactical, corrections, military, industrial safety/medical rehabilitation, and more. Hatch brands include Friskmaster™ cut resistant gloves, Operator™ Tactical Gloves, Centurion™ and ExoTech® disturbance control gear and B.O.S.S. tactical eyewear.

Please visit our website to see the entire range of Hatch products.

INFORCE® FLASHLIGHTS

INFORCE® Color flashlight.

INFORCE® COLOR - ONE LIGHT.™ MULTIPLE MISSIONS.

Whether employed on land, at sea, or in the air, no flashlight is more versatile or better suited for modern warfare than the

With five high-performance, multi-intensity and programmable LEDs, it is the lighting choice for any situation. Among the virtually limitless missions suitable for the INFORCE® Color flashlight are a field light, close quarters battle, high-risk search, prisoner control, ground crew operations, fluid detection, target designation, and explosive detection and identification.

INFORCE® WHITE - ONE LIGHT.™ MULTIPLE MISSIONS.

Fully multi-mission capable, the INFORCE® White flashlight is designed to deliver precise lighting performance at three levels of light intensity. When required, it can operate as a high-intensity signal/reconnaissance and navigation beacon, and has a built-in disorienting CQB strobe® for use during search and entry engagements and operations.

INFORCE® 6vx/9vx and 6v/9v - OWN THE NIGHT®.

Designed and engineered specifically for the armed services with the finest materials and precision manufacturing techniques. Every engineered aspect, whether in optics, electronics, materials, thermal dissipation, power management, durability or usability has been driven by performance criteria.

INFORCE 6vx/9vx and 6v/9v flashlights deliver the power to "own the night" with astounding beam quality, brightness and performance.

Both easily attach to MOLLE vest and are NATO Accessory Rail (NAR)/MIL-STD-1913 rail compatible) and remote pressure switch operable with optional attachments.

INFORCE® TECHNOLOGY/FEATURES

- **Carbon Fiber Body:** Ultra-light and strong carbon fiber composite body saves weight and withstands the rigors of combat.
- **One-Hand Operation:** Simple, reliable, intuitive tailcap switch for single-hand operation.
- **Coated Stainless-Steel Belt Clip:** Replaceable clip attaches to MOLLE vest.
- **Weight:** Designed to help alleviate the burden troops carry in the field.
- **Scalloped Head:** Designed to let light "spill out" to indicate if flashlight is on while in upright position.
- **Built-In Lanyard Hole:** Designed to accept standard 550 parachute cord.
- **Lithium Powered:** For maximum performance and longer battery life.
- **Solid State Technology:** Incorporating high-performance LEDs and circuitry for unsurpassed performance under all conditions.

- **Proprietary Power Regulation:** Internal power regulator provides uniform light output and maximizes battery life and run time.
- **Patented Heat Releasing Vents:** Maximize LED performance and keep the flashlight cool to hold.
- **Powerful LEDs:** Premium, bin-selected LEDs are long-lasting, shock-resistant, and unbreakable for strong and reliable lighting.
- **Brilliant Beam:** Custom-tuned optics for a powerful hot spot and balanced peripheral lighting.
- **Water Resistant:** Premium grade O-rings seal out water and keep out dust and dirt.
- **Low Maintenance:** Simply rinse with water and dry with a soft cloth for optimal working condition. Replace batteries as needed. (INFORCE 6vx/9vx and 6v/9v require occasional cleaning and application of a silicon-based lubricant to rubber O-rings in the tailcap switch.
- Removable and adjustable storage loops for extra magazines
- Full-wrap carry handles make it easy to move gear to different shooting stations

- Includes an adjustable, removable muzzle protector with web carry handle for ease of travel

6006 ALS® Guard

The 6006 ALS Guard is an option used on ALS Concealment Holsters for additional security. With it, a primary lock must be disengaged before access can be gained to the Automatic Locking System lever on the holster. Similar to a smaller version of the SLS Hood, the ALS Guard is pressed forward, exposing the ALS lever which can then be unlocked by the normal

draw of the hand just as with any ALS holster. The 6006 can be retrofitted onto existing ALS concealment models or ordered already installed.

SAFARILAND HANDCUFFS

We are pleased to announce that the following Safariland handcuff Models have recently passed testing under the NIJ 0307.01 Standard.

The Safariland handcuff models 8112 and 8122 are designed with a variety of unique features. All handcuffs include a back-loading capability that facilitates fast application, and three independent retaining bars with six teeth on each that make the cuffs extremely difficult to shim.
